Headache.

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented and taken at the commencement of an attack, immediately relieved from sickness will be obtained.

They soon fall in removing the Nervous and Headache which females are so much subject to. They act generally upon the bowels—removing Constipation.

For literary men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a laxative, in improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural electricity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable, in their composition, and may be taken at all times with perfect safety without making any change of diet, nor the absence of any disagreeable taste renders it easy to swallow them to children.
